Postal Notice 1840 (April): The magnificent Edinburgh Postal Notice with vertical pair of 1 d . intense black, pl. 1A, lettered MH-NH, four margins all around, the lower stamp with horizontal crease, the upper stamp in wonderful fresh condition, on notice which is, as usual, creased both vertically and horizontally and with minor scissor cut into base of lower stamp. From the very few recorded Postal Notices (all except one originate from the Edinburgh Post Office), three bear vertical pairs from the ' M ' and ' N ' rows of the 1 d . black (letterings MD-ND, MF-NF and MH-NH). These Postal Notices from the Edinburgh P.O. were from the original 1840 distribution to all branch Offices announcing the introduction of the world's first postage stamp. Two of these were found prior to 1899 and were amalgamated with a contemporary find of "envelopes and stamps" in the Dublin G.P.O. (the "Dublin Find") and this particular Notice is illustrated on page 45 of "The Dublin Find". Minor ageing but of great rarity and a delightful Exhibition piece.

Provenance: Stanley Gibbons Auctions, 11-12 September, 1980, Iot 54.

1879 (5. Mai): Eigenhändiges und signiertes Dankschreiben vom Kaiserlich Deutschen Generalpostmeister Heinrich von Stephan an den Autor und damaligen Postangestellten Herrn Joh. Anton Stäger in Bern: "...die Güte gehabt, mir Ihre Schrift "Die Schweizerische Post zur Zeit der Helvetik" zu übersenden ...". Dazu Briefumschlag vom selben Joh. Anton Stäger als Generaldirektor der Schweiz. Post (1909/18) mit rotbraunem Absender- und Frankostp."Directeur Genéral Postes" gest. "Bern 16.III.10" und adressiert an den Direktor des Weltpostvereins Eugène Ruffy (1899/1919), dem vormaligen Bundesrat (1893/1899). Zwei interessante Dokumente zur Geschichte des Weltpostvereins, der ersten weltumspannenden Organisation überhaupt.

1879 (Feb 8): Postal Notice from the Berne Office of the UPU headed "Annexe A La Circulaire Du Bureau International" and dated below, with "Colour Chart" for both the size of future definitive adhesive stamps and their colour uniformity: 5 Centimes in green, 10 centimes and 25 centimes in blue. This Annexe was enacted almost universally thereafter-for example Great Britain 1879-80 values were thus: \(1 / 2\) d. green, 1 d. red and \(21 / 2\) d. blue; Belgium 1883/84 5 c . green, 10 c. rose and 25 c. blue; Denmark 18845 ö. green, 10 ö. red, 25 ö. blue etc. A marvellous item, replete with printed letter from Berne to the London GPO detailing the countries who felt the measure inopportune (France \& Colonies, Russia), those that desired to do it but without current facilities (Argentina, Netherlands and Switzerland) and the 20 countries who had agreed the measure. Edge wear to the document but rare and important piece of philatelic history.

Netherlands. "Phonopost" 1950: On the proposal of the Argentine Republic a new method of postage was introduced - a small record disc, the same size as a modern CD or DVD, could be mailed through the post in a printed envelope, the message having been recorded on the disc. A fine used example from Rotterdam to Canada with envelope (franked at 32 c.), disc and a packet with the needles to play the disc still intact. The service was abolished in 1971 but Egypt used "Cassette" envelopes in a similar manner in the late 1980's. Remarkable item, the first Corinphila has offered.

1885: Collection with almost no duplication of worldwide postal stationery cards \& reply cards (600+) predominantly mint but some scarce and interesting used examples, nearly all with "Universal Postal Union" in the headings.
Note: The Lisbon Congress authorised post-paid reply cards, countries wishing to issue them could do so, but all UPU members were obliged to accept pre-payment of the reply halves. The 1891 Vienna Congress made the issue of reply cards obligatory - they were officially abolished in July 1973.
